26 week 1956

of the 1825 Fills Project Sirector

30318CT

: Visit to matertown Strip, 21-23 March 1956

## 1. Personnel:

- a. The critical administrative problems for Detachment & continue to be personnel. It was pointed out by that it is not very practical to undertake unit tests 9-13 April when certain Detachment A personnel will not be available to actually fulfill their primary jobs for the Detachment.
- b. A review of the T/O was made and the following positions were considered to be critical insofar as these tests are concerned:
  - (1) Physiological Training Officer.
  - (2) Aeromedical Tachmician (Position 78).
  - (3) merehousing Supervisor (Position 350).
  - (4) Marchousing Specialist (Position 351).

The remaining few vacancies other than these were not considered to be
critical for purposes of the test. said that he would be willing,
if the Project should be unable to provide suitable supply personnel to fill
critical supply positions, to provide one, and possibly two, personnel of
the 4070th for 45 days eversess TUY. This would provide the Project with
sufficient time to complete processing of our supply candidates and enable
our personnel to be adequately trained before trained 4070th personnel
would be returned.

c. The utilisation of a Case Officer, with respect t	a the pilets
of Detachment A, was theroughly discussed with	and
Gibbs. It was decided that under the particular circumstances	of location.
personalities, relations with the pilote, etc., that these pil	
billieted oversess with the remainder of Detachment A and to al	
and purposes will be treated as integral members of the Detach	
constitted himself to adequate handling of the administrative a	nd operational
aspects of the pilets through the median of his regular letach	
in view of this decision, and there being no other suitable po	
on Detachment A T/O er at Matertown Strip.	the designee
for Case Officer on Detachment A, was ordered by the undereign	ed to return
to Headquarters for probable reassignment within the Project.	
Wil return on or shout 27 Sameh 1956

## i. Civilian Filets:

- (1) The civilian pilets seem to be entirely estisfied with the rewritten contract. Three of the pilots have completed the required training flights and the other three should complete them with one or two sore flights. All are considered to be exceptionally able personnel by officers of the Detechment and SAC training mission.
- (2) Acquest was made that we provide language records for off-duty study by the pilote and other personnel as follows: The base requests guidence as to whether or not a phonegraph should be locally purchased.
- inquired as to the status of settlement of (3) his travel wousher for the period 18-21 January. The same inquiry Ave made pa
- (4) Our cable. is quoted by the Detachment as justification for allewing actual expenses on the trips of pilots to Merchaster for suit refittings. All personnel were briefed by the undersigned that we, henceforth, desire that pilote be treated travel-wise as any other employee; i.e. allowed normal transportation and official business expenses, and be granted per diem for personal expenses.
- (5) The next training progress was discussed with Colonels and it was agreed that six (6) pilet candidates should be available at watertown to commonce training on 7 May, with a susceeding group of six (6) to be available 21 May. We were requested by to defer the reporting dates of until the above training dates.

Satertown Strip, has in his possession a FCS order to los ingeles but believes that while in Headquarters he signed a piece of paper for Military Purcennel Division in which he agreed not to claim reinburgement for movement expenses of his family. The base was informed that we would cheek on this point and advise them whether or not may move his family to los Angales. It is considered highly desirable that he do so imagenesh as one of his children is entremely ill. Emergency leave has been granted him.

dibbe. discussed the problem of a supply officer on Detachment A and the addition of another efficer pointed out was not approved. subordinate to that he will have a supply efficer permanently assigned to the 7th Air Division who will be charged with the direct supply lisison and support of Detschment A 1.1001073
